Seattle-Based and Travelling

Welcome to our vendor guide!!! Here's what you need to know:

I am HUGE fans of these artists' work! However, I cannot guarantee their performance or availability for your event. Also, I want to clarify that Blooms and Twine Floral Design doesn't ever get a cut of their bookings. The reason I selected the talented people on this list is that I genuinely love their work! I've created alongside them to make magic, and have seen firsthand the joy and skill they each have in their field.

As a queer woman myself, it was extra important to me that every vendor on this list is not only LGBTQ-friendly but also actively creates a space for people in love no matter their race, religion, ability, orientation or gender. The majority of them are also woman-owned and operated. I feel safe with these incredible people, and truly believe you will too.

Happy planning, Bloom Babes!

Love, Katie

PHOTOGRAPHY

Breanna and Kevin, BreannaplusKevin

This super cute dynamic duo is fun to work with, and so kind! Plus, their gorgeous true to color edits always make the flowers pop, which we love. They're experts in catching those little candid moments that you'll treasure while sprinkling in amazing, high art posed photos.

Breeanna, Eleven Eleven Films

Breeanna does the coolest work! Moody colors, double exposures, stunning perspectives and angles. She can definitely deliver that fine-art photography look... with a healthy dose of sass! Fun fact about Breeanna... she's a kitty foster mom, and the first time we met I spent a solid hour having kittens crawl all over me. It was the best!!

PLANNING & COORDINATION

Wedding Management by B&T

Something I offer exclusively to our floral clients is wedding day management services. We'll help you create a timeline, be a liaison for your vendors, and make sure that everything is happening smoothly. Your manager would coordinate things like room flips and guest movement to make sure that you and your guests are getting the most out of the day. Because honestly? During events, things happen. But with day-of wedding management it's not on you to put out the fires (Occasionally literally. We're big on candle safety!). It's not a substitute for planning or day-of coordination, it's truly a behind the scenes service.

HAIR AND MAKEUP ARTISTRY

Lisa, Lisa Boehm Beauty ≈♡≈

Lisa is like that cool big sister everyone always wanted to have! She's not only a fantastic hair and make up artist, but also the exact person you want to spend hours and hours with the morning of your wedding. My favorite thing about her work is that she makes you look like the most confident version of yourself. She's a pro at doing anything from fun, bold looks to simple elegance.

LIVE WEDDING PAINTING

Paige, Paige Lindsey Design

Paige is a one-of-a-kind bubbly creative force, and should absolutely be on your vendor team. I've had the honor of watching her work live and it is so mesmerizing! Watching her bring a day to life on canvas is jaw-dropping. B&T is lucky enough to be teaching workshops alongside her this year and I can't wait to soak in all the knowledge I can!! Paige also does custom commissions for wedding flower memorialization.

CALLIGRAPHY AND STATIONARY

Rachel, Everglow Handmade

Rachel is an incredible creator, and has the pure talent that makes her work shine on a different level. Her lines are clean and stunning, and she does incredible design work as well, meaning your whole wedding can have a seamless and cohesive look! She's also just really fun to laugh and talk with.

Brittany, Letters and Dust

Brittany can do literally anything. Watching her work is absolutely mesmerizing! And the pieces she creates are one-of-a-kind. If you want something you can treasure for the rest of your lives together, absolutely check out her work. Also, in case you're not the sentimental type who wants to hold onto their signage, she does rentals too.

GOWNS

A&Be Bridal Shop

A & Be is easily one of my favorites. They have incredible designs from a variety of designers, but also dedicate themselves to giving back through their "Babes on a Mission" program which focuses on lifting up marginalized groups and reproductive health. So you can look amazing and feel amazing too! They gave \$34,000 in 2020.

Brides for a Cause

Brides for a Cause is such a cool concept. Because they only carry donated samples and gently-used secondhand items their selection is constantly changing and encompasses a wide variety of styles and sizes. They take those donated gowns (and attendant dresses and separates), sell them, and donate 90% of the profits! Since they opened in 2012 they've donated over \$1,000,000 to charity.

SUITS & OTHER FORMALWEAR

Confete

Confete is pure fun! Their online shop is full to the brim with unique textures, fabrics, and silhouettes that are guaranteed to bring whimsy to your showers, receptions, or courthouse ceremonies. They also have loads of chic separates and pantsuits.

Kirrin Finch ≈♡≈

Even if custom is out of your budget, you can still have a lovely gender-affirming suit. Designed with cuts for ladies and theydies, these high quality suits are gorgeous and have extra seam allowances so they can be taken to the tailor for a perfect fit.

All of these boutiques are size inclusive & carry accessories as well!

Amanda crafts beautiful and elegant accessories in both 14K gold fill and sterling silver. I especially love her pearl pieces! Size inclusive.

Automic Gold 

This queer-owned brand specializes in gender-inclusive pieces and has a lovely wedding collection. Ethically sourced & size inclusive!

Katie, Tailored Tulle

If you thought veils were outdated, check out Katie's and reconsider! We love her thoughtfully handmade veils. They're available in all lengths, tons of shades (even black!), and with customizable detailing there's definitely something for everyone.

FLORAL PRESERVATION

Soil and Soul Studio

Soil and Soul makes modern floral art out of resin, and is an awesome choice if you're looking for a 3D way to preserve your flowers for life! My personal favorite pieces they create are their ring holders and pendants - they're such sweet (and useful!) ways to remember your big day, every day. They also have DIY kits if you feel like taking this project on yourself!

Teagan, Muted Rose Embroidery

When I first discovered Teagan's work it took my breath away! She lovingly hand embroiders an image of your bouquet, creating the most unique forever flowers I've ever seen. The depth and texture she's able to create with so few materials is incredible.

Bloombeads by Freeze Frame

Bloombeads is such a cool process! They take your wedding flowers and turn them into custom beads that can be transformed into jewelry! I especially love their cuff bracelets.

Preservation by B&T

Our final BT exclusive. Would you like to divert some of your wedding day flowers into a sentimental keepsake? I will save some of your flowers after the event and press them into a stunning pressed flower art piece.

Emily, Pressed Petals by Emily

Emily creates super cute pressed bouquet recreations, nice full shadow boxes, and artistic dried flower cloches. She can even include photos and trinkets from your big day.
