

BLOOMS AND TWINE FLORAL DESIGN'S BEST FRIENDS

International and Travelling

Welcome to our vendor guide!!! Here's what you need to know:

I am HUGE fans of these artists' work! However, I cannot guarantee their performance or availability for your event. Also, I want to clarify that Blooms and Twine Floral Design doesn't ever get a cut of their bookings. The reason I selected the talented people on this list is that I genuinely love their work! I've created alongside them to make magic, and have seen firsthand the joy and skill they each have in their field.

As a queer woman myself, it was extra important to me that every vendor on this list is not only LGBTQ-friendly but also actively creates a space for people in love no matter their race, religion, ability, orientation or gender. The majority of them are also woman-owned and operated. I feel safe with these incredible people, and truly believe you will too.

Happy planning, Bloom Babes!

Love, Katie

PHOTOGRAPHY

Michelle, Michelle Unger

I became friends with this lovely human via Instagram, and got to meet her in Dresden, Germany this past fall! Michelle's work is candid and warm and so intensely personal. She's a delight to work with, anywhere in the world.

Meagan, Meagan Gibson Photography

Meagan is so much fun to work with!! Her work is incredible — her beautiful "light and airy" style edits feature colors straight out of a dream! The way she can capture the small, loving moments that no one else seems to see astounds us every time. She's spectacular; the closest digital can get to film. I met her on the Oregon Coast, but she has a home base in Arizona too. So if you're hoping to rock some desert vibes for your big day, try reaching out to this beauty!

Kayla, Kayla Bowen Photography

Kayla is creative and joyous and has the most contagious smile I've ever seen! Her work is bright and incredibly fun. Working with her is easy, like spending the day with your long-time bestie. She's living her best life in Las Vegas, but is active all over the US and has a worldwide bucket list.

FLORAL PRESERVATION

Soil and Soul Studio

Soil and Soul makes modern floral art out of resin, and is an awesome choice if you're looking for a 3D way to preserve your flowers for life! My personal favorite pieces they create are their ring holders and pendants - they're such sweet (and useful!) ways to remember your big day, every day. They also have DIY kits if you feel like taking this project on yourself!

Teagan, Muted Rose Embroidery

When I first discovered Teagan's work it took my breath away! She lovingly hand embroiders an image of your bouquet, creating the most unique forever flowers I've ever seen. The depth and texture she's able to create with so few materials is incredible.

Bloombeads by Freeze Frame

Bloombeads is such a cool process! They take your wedding flowers and turn them into custom beads that can be transformed into jewelry! I especially love their cuff bracelets.

Emily, Pressed Petals by Emily

Emily creates super cute pressed bouquet recreations, nice full shadow boxes, and artistic dried flower cloches. She can even include photos and trinkets from your big day.

HAIR AND MAKEUP ARTISTRY

Lisa, Lisa Boehm Beauty

Lisa is like that cool big sister everyone always wanted to have. She's got a great eye for color combinations, and her styling skills are off the charts. She works magic in Oregon, Washington, and Costa Rica. But if you ask nicely, I have a feeling she'd adventure anywhere, because this babe has that adventurous heart that can't be stopped.
